el método definitivo contra la estupidez para qué sirve pensar reflexionar sobre el mundo que nos rodea cómo aprender a pensar este libro responde a ambas preguntas y nos muestra lo que nos enseñan algunos de los grandes pensadores que nos han precedido pensar no es un mero pasatiempo teórico nos ayuda a combatir los prejuicios a darnos cuenta de las trampas de la lógica que emplean políticos publicistas o religiosos para no caer en ellas a tener criterio para definir los límites y las

posibilidades de los avances científicos pero en contra de lo que parecen indicar los actuales planes de estudio y reformas educativas para pensar es necesario tener conocimientos aprender hoy día se discute con frecuencia si es preferible ser inteligente o tener conocimientos es una discusión tonta porque ambas cosas saber e inteligencia solo pueden avanzar si van de la mano quien se empeña en opinar antes de estudiar por aquello de que la inteligencia es más importante que el saber solo podrá dar opiniones tontas

the democracy of the late 20th century has been more beneficial to the friends of commerce than to the democrats its advantages and successes have turned it into a political regime that is now anachronistic and untimely democracy is the name inherited from a past imperfect and recent which used to manage our way of life today that life of ours is managed by commerce and the friends of commerce if politics is the organization of power that is to say the administration of freedom the rights of the democratic citizen are moving away from the legal framework of the states with the historical failure of democracy in the 21st century three realities with which humans have lived since the renaissance also fail the modern state political freedom and civil laws a post democratic society is one in which the state fades away political freedom disintegrates and civil laws fit onto a complaint form because the rights of the citizen are the rights of the consumer in the hands of the friends of commerce which is to say nothing people have not yet internalized the failure of democracy the market does not want democrats it wants consumers

podríamos convenir que en el cruce de la erudición la ficción y la tertulia se vantejando las creencias y los supuestos a partir de los que cada cual forma su teoría educativa nos tememos que unas pueden tener más peso que otras quizás las últimas con su potencia mediática sean más succulentas y de consumo rápido seguramente las literarias tienen un alto poder explicativo y resultan siempre muy atractivas sin duda las eruditas suelen ser más aburridas y se alejan del gran público en cualquier caso lo que resulta notorio es que el bosquejo de la educación no es exclusivo de ninguna de estas aproximaciones teóricas ni el sabio ni el artista ni el opinador amateur o profesional pueden atribuirse la exclusividad sobre la verdad en educación este libro debe leerse como una defensa corporativa de la pedagogía y está dedicado a sus practicantes pedagogos y pedagogas de ambos sexos como exige la corrección política que se esfuerzan también desde la buena fe por intentar entender mejor la cosa educativa quizás los más inofensivos o por sugerir alivios para los males que la aquejan los más atrevidos fabricando las pócimas y los remedios más variados no siempre del todo inocuos
